Leslie,

Attached are some of the documents and photos.

The 38-page document has detailed information on the “deactivation” (treatment?) process for the incompletely reacted aluminum phosphide in Section 24 (Disposal Instructions) starting on page 32.

Let me know if you have any questions.

Ron

Hi Ron,

Thanks for the detailed write-up. However, we still don't have access to the associated photos and documents – is there a way for us to get access to those to begin our follow-up investigation?

Thanks,

Leslie

Hi Jodi,

Ron mentioned he has a fairly detailed narrative, along with photos and other documents for me to access – probably in their SPIIS system? Can you send those to me?

Thanks,

Leslie
